Rep. Dargan,

The law allowing law enforcement officials may ask to see those permits if there is “reasonable suspicion” of criminal conduct seem like a reasonable compromise. It gives the Officers the backing if they have a “reasonable suspicion”, while leaving persons lawfully caring with out harassment. The proposed change in the law would allow open harassment of citizens that were lawfully going about there business.

I urge you to drop this proposed change encapsulated in H.B 5408.

Thank you,
Leo MacDonald
